FUND MANAGER COMMENTARY

In May 2025, IDR Dynamic Syariah Fund booked performance of +3.57% mom, better than the benchmark performance. In May 2025, JCI continued its positive momentum and reversing early-year weakness, up +6.04% MoM. The gain was driven by improved domestic sentiment, especially improved tax revenue and BI rate cut. Globally, weakening DXY also helped to strengthen the Rupiah -3.2% MoM to IDR16255 level, providing further optimism for equity markets. Foreign participation remained modest with a net-inflow of IDR5.5trn (\$773mn), but this marked the first monthly net-inflow in the last 4 months. In terms of sector inside ISSI Index, largest positive contributors were Materials (primarily TPIA IJ and ANTM IJ), Energy (DSSA IJ), and Communication Services (TLKM IJ). IBPA Indonesia Government Sukuk Index Total Return recorded positive return by 0.58% on a monthly basis. Meanwhile, Bank Indonesia (BI) lowered its policy rate by 25bp to 5.50%, marking its second cut since January in line with market expectations. BI reiterated that the decision is consistent with efforts to keep inflation within target, stabilize the currency in line with fundamentals, and support economic growth.
