FUND MANAGER COMMENTARY

In May 2025, USD Advanced Balanced Fund booked positive performance of +4.31% mom above the benchmark by 125 bps. Despite lingering uncertainty due to tariffs, global equities rallied strongly in May 2025. This was the strongest May for global equities since 2009 and was catalyzed by the 90-day US-China tariff truce that was announced on 12 May 2025. For the month ending May 2025, Information Technology, Industrials, and Communication Services led. Technology, in particular, has surged, with the NASDAQ and Magnificent 7 up 25% and 29% respectively. The fixed income markets were mixed in May 2025. US Treasuries retreated in May 2025 while US high yield corporate bonds delivered positive returns. US 10-year yield increased in May 2025, halting four consecutive months of decline. US high yield and US investment grade credit spreads tightened in May 2025, with high yield credit spread tightening significantly more than investment grade credit spread. The situation remains fluid and as such, we remain vigilant and will be closely monitoring for concrete progress on the trade negotiations front as well as growth conditions holding up.
